Your dealer warranty

Hello and welcome!

Congratulations on buying your new vehicle. It's always exciting to get behind the wheel and drive home for the first time!

No matter how well we look after our vehicles, they can and do go wrong - and when that happens, you'll want a trusted warranty provider to help take care of the repair costs.

I've proudly partnered with Warranty Solutions Group to bring you the UK's best warranties, which cover you for the repair or replacement of thousands of parts - including many normally excluded by other providers.

Please keep this booklet safe with your schedule as it contains important information such as what you are and aren't covered for, your obligations for keeping your cover valid and more. If you need to claim, make sure you follow the claims process on page 11 and that we authorise any repairs before work is carried out, as we won't be able to pay afterwards.

We're here to give you a great experience so whatever the query, just reach out to us on the details above. Welcome to the WSG family!

Best wishes,

Ben Collins – former Stig from BBC's Top Gear, motorsport legend and stunt double to the stars

This is an agreement with your dealer to protect you from unexpected repair bills and your dealer has appointed us to fulfil their obligations. Note: this is not an insurance product and falls outside the scope of the FCA.

Additional benefits

On top of the excellent coverage your warranty provides, you also get the following features. Please note: these must be authorised by us in advance.

Car hire

Providing the fault is covered and repair time is over 8 hours, we'll pay for up to 7 days of car hire (starting from when the repairs commence) up to £50 per day inc. VAT as part of your claim limit. Excludes fuel and insurance.

Vehicle recovery

We'll pay for the cost of recovering the vehicle to the nearest garage up to £75, on covered repairs, including VAT as part of your claim limit. You will need to arrange the recovery.

European cover

Your plan includes 30 days of European cover. The claims process remains the same. Reimbursement will be based on the currency exchange rates on the date that the claim is agreed. Dates of travel may be required to support your claim.

Overnight accommodation

If your vehicle is rendered immobile, we'll also pay for overnight accommodation or rail fare, up to £60 including VAT, as part of your claim limit. Receipts will be required. Drinks and meals are specifically excluded.

Your obligations

To keep your warranty valid, there are a few things you must do:

Have your vehicle serviced regularly as per the manufacturer's guidelines by a VAT registered garage. You've got 30 days or 1,000 miles (whichever is sooner) from the service due date to have it completed. Your vehicle must also be kept in a roadworthy, legal condition and be taxed, insured and hold a current MOT certificate.

Keep hold of the service invoices as we may require them if you need to make a claim. There's also a page at the end of this booklet for the service stamps.

Carry out any routine maintenance as required i.e. topping up or changing of oils, coolants and antifreeze. We won't pay for any repairs if your vehicle isn't maintained properly.

Follow the claims process on page 11. It's really easy but we cannot stress how important this is for your claim to be considered. If you need assistance, please call us on 0800 0608610.

Don't ignore any warning lights, signals or gauges as you could make the problem worse which may affect our decision. Any faults which might be covered must be reported to us within 7 days.

Your cover may be invalidated if you don't comply with these obligations.

How to make a claim

CLAIMS:  0800 0608610  claims@wsgwarranties.co.uk

Important: All repairs must be authorised by us before work can commence. Failure to do so will result in us being unable to pay your claim.

1. If a fault becomes apparent, please check to see if it might be covered. If you're not sure or need advice, contact us on the above details. Your vehicle will need to be booked in at a garage - depending on the arrangement we have, we may be able to arrange this for you if you wish.
2. If the fault is not evident to the garage, it may need to be diagnosed. You are responsible for authorising the garage to do this and for the costs at this stage. If you have our Gold or Platinum plan and the fault is covered, we'll also pay for reasonable labour time to diagnose the fault as part of your claim.
3. Following diagnosis, please ensure the garage contacts us before progressing with the repair as we are unable to consider your claim afterwards. When our costs are established, we'll provide an authorisation code to the garage for repairs to begin immediately. Again you'll need to authorise the garage to carry out the repair.

Important: Should you instruct the garage to commence work without our authorisation, you do so in the knowledge that your claim may be declined due to denying us the opportunity to inspect the vehicle and determine the cause of failure. You are responsible for any excess parts and labour charges, plus any repairs which aren't covered under your plan.

How to receive payment

If the repair was carried out by one of our approved garages, you don't need to do anything as we'll settle the claim with them directly. If the repair was carried out by your own garage and we're either reimbursing them or yourself:

- 1)  | Following the repair, you or the garage (depending on who we're paying) must send us a copy of the repair invoice, along with any documents we've requested. Make sure the invoice is made out to Warranty Solutions Group Ltd, otherwise we won't be able to reimburse any VAT element. Please clearly mark the invoice with the claims authorisation code and state who we are to pay.
- 2)  | Payments will usually be processed within two working days upon receipt of all documentation.

Remember: Your claim can only be paid if this process is followed correctly.

Claim conditions

In addition to the terms on the previous page, there are some other important things you need to be aware of when requiring claims assistance:

1. We reserve the right to contact garages to discuss potential liabilities, and nominate the garage and / or the supplier of the parts. We also reserve the right to use guaranteed reconditioned or exchange parts, and to send any parts away for reconditioning or inspection
2. Where the repair or replacement of the part(s) or assemblies brings about improvement or betterment of the vehicle, we reserve the right to require a contribution from you towards the cost of the repair at our reasonable discretion. We will discuss this with you before the repairs commence, taking into account the current age and mileage and the cost of restoring the vehicle to its pre-breakdown condition
3. If the cause of failure is not evident from the diagnosis, your vehicle may need to be stripped or disassembled to some extent for a claim to be considered. This will only be done on your authority and the costs will remain your responsibility until the claim is authorised
4. To establish liability, there may be times when we need to instruct an independent assessor to inspect and report on their findings. The results of these findings are final and binding on all parties. If, following specific arrangements, the vehicle is not available or the assessor is unable to carry out the report (for instance if the vehicle is not stripped), we will deduct fees for the second inspection visit from the authorised claim amount
5. Repair times are calculated inline with the repair times definition on the contents page at the agreed labour rate. Our liability will be based on the repair times as shown for the specific repair
6. All repairs must be registered with us within 7 days of their occurrence
7. You may be required to provide proof of servicing with a recent service invoice from a VAT registered garage before a repair can be considered
8. You have 3 months from the date the authorisation code is provided to submit the invoice to us for payment. After this time, the claim will be cancelled and no reimbursement is possible
9. This warranty is limited to one repair of each covered part
10. If more than one part has failed at the time your claim is agreed, it will be dealt with as one claim
11. If you are VAT registered, the VAT element will not form part of any claim against us
12. In the event of a false or fraudulent claim, your warranty will be invalidated. We also reserve the right to prosecute in all cases

If you need advice about your vehicle or wish to discuss any of the above, reach out to our claims team on 0800 0608610 or email claims@wsgwarranties.co.uk

General conditions

1. No part of this document may be altered without our consent. Your warranty is in addition to any legal rights that may apply.
2. Your warranty is governed by English law and this is the law we will use unless you ask us for another and we agree to it within 30 days of the date that your cover starts. Any communications regarding your cover will be in English.
3. You must give us all of the information and help that we require in order to provide service under your plan. This also applies where we wish to enforce any rights against any manufacturer, repairer, supplier or other party.
4. You must comply with all of the terms and conditions of this warranty, including 'Your obligations' on page 5. Any liability we may have depends on your compliance with these terms and on the truth of your statements.
5. If you give us incorrect information, we may consider your application fraudulent and reserve the right to cancel it with no reimbursement. Where we have made any payments as a result of your dishonesty or exaggerated behaviour, your cover will be invalidated with immediate effect and you will again not receive any reimbursements. We also reserve the right to take legal action against you to reclaim any repair payments made. Any legal proceedings will be held in the courts of England and Wales.
6. You must allow us free access to examine the vehicle at all times.
7. You are responsible for authorising the repairer to commence the work required and for paying the costs involved if the work proves that the repair is outside of our liability.
8. Subject to our approval and at our absolute discretion, we'll offer you the opportunity to upgrade your cover (where eligible) within 4 weeks of you taking it out, and also the opportunity to renew 30 days before your cover ends. If you'd like to be notified with these communications, you'll need to make sure you've given us the right permissions to contact you.
9. Occasionally we may need to amend this warranty in relation to component coverage or wording, or inline with new laws and regulations. We will advise you of any changes in writing in advance.
10. We will not tolerate abuse, slander, false allegations or otherwise untoward behaviour under any circumstances and may cancel your cover at our discretion if any such behaviour occurs. In these instances, we also reserve the right to begin legal proceedings to reclaim costs for any damages incurred should we deem necessary.

Other important information

Payments and premiums

If you are upgrading or renewing your cover with us directly, we can take payment by debit or credit card. If you choose our monthly payment option, we will take the payment on or around the same date each month. You can choose the date from the options available. Renewal or upgrade premiums may be amended at any time. If you've chosen to pay by monthly instalments, any outstanding premiums will be deducted from the authorised claim payment.

Transferring your cover to a new owner

If you sell your vehicle, you can apply to transfer your cover to the new owner providing they don't work in the motor trade. A £25 admin fee applies. Please see page 18 for details.

Cancellation

You can cancel your cover within 14 days from the start date. If your cover was purchased through the dealer, the dealer's refund policy will apply if applicable. If it was purchased directly from us, we will refund you providing no claims have been made during this period. After the 14 days no refunds are possible.

Discretion

We use our own discretion to ensure that you receive a fair and equitable resolution to every claim you make. If after following the complaints procedure below you feel that your complaint has not been resolved satisfactorily, our Directors will be the final arbiters for the exercise of this discretion. This does not affect your statutory rights.

Your personal data

We are the Data Controller in respect of any personal information you supply which means that we have a legitimate interest to collect, store and share your data amongst our group of companies in order to administer your cover and provide you with a service. For these reasons, we may need to share it with repairers, dealers, suppliers or other parties where required. Breakdown cover

9. Attendance times are guidelines only and are not guaranteed.
10. We cannot accept any responsibility for the transportation of pets / livestock within the vehicle during your callout; nor the loss or damage to any personal belongings.
11. Most roadside repairs are only temporary so the vehicle can be driven to a garage for the permanent repairs. You are responsible for arranging this. Roadside repairs are not a substitute or replacement for a permanent repair and cannot be used as such. We will determine where roadside repairs are possible based on the fault and circumstances.
12. Your cover ceases as soon as the vehicle is made driveable again, even temporarily. Where a vehicle was not starting and is then started by us, it must not be switched off (either manually or by a stop / start system). If this happens and the vehicle will not restart, further assistance to restart again will be chargeable to you at our current commercial rates.
13. Recovery to a specific destination cannot be used as a reason for avoiding or reducing repair costs.
14. We cannot guarantee that the garage we recover your vehicle to will be open or able to commence the repairs. Neither factor will exclude them from being the nearest suitable repairer. Should we recover your vehicle to a garage that is capable of completing the required repairs and you then request recovery to an alternative garage, the costs will be charged to you at our current commercial rates.
15. If we believe that we cannot provide an acceptable level of service to your residential area, we will cancel your cover by writing to you within 14 days of your application.
16. We may require you to verify the validity of a claim by providing proof of repair with a paid invoice from a VAT registered garage within 14 days. If this proof is not received within 14 days, you will be charged the assistance costs. These costs will be reimbursed if the claim is deemed valid upon receipt of said proof.
17. Where social distancing measures are in place, passengers cannot travel in the recovery truck or be transported in the vehicle while it is being recovered. You or the driver will need to arrange alternative transport. We may be able to help you arrange this where the breakdown is in an unsafe location, but cannot make the arrangements on your behalf or accept any responsibility for such arrangements. Any costs incurred are your responsibility.
18. During the current pandemic, we may offer you a service which doesn't necessarily reflect these conditions, to ensure the safety of you, your passengers, our recovery drivers and engineers. We will do our utmost to provide a like-for-like service.
